

REMARKS

The Divisional Application Transmittal submitted with the present application at the time of filing requested the specification be amended to refer to the parent application. A copy of the transmittal is attached hereto. It appears, however, this amendment was not made. As such, entry of this amendment is now requested under Rule 312. No other changes have been made in this Amendment.

The amendment presented herewith does not present new matter nor does it require any substantial work on the part of the U.S. Patent and Trademark Office. No additional search or examination of the claims is required or needs to be performed. The scope of the claims has not changed. Accordingly, Applicants respectfully request entry of this amendment, submitted prior to payment of the issue fee, pursuant to 37 C.F.R. 1.312.

Applicants are cognizant that entry of this amendment will not update the priority information for this application. Applicants are concurrently submitting herewith a Request for Corrected Filing Receipt to update the priority information.

Respectfully submitted,

Stanley D. Ference III
